HIGH-TOUCH MEETS HIGH-TECH

CONNECTING THE BEST IN HEALTH AND BENEFITS

Accolade blends compassion, expertise and technology for better health and better business.

It's time to make healthcare work for everyone – simply, efficiently, and seamlessly. That's the beauty of Accolade. We untangle the complex web of healthcare, creating a single, integrated consumer experience. We unlock the power of data, generating entirely new insight into the unique needs of each person. And we connect the vast world of healthcare technology innovation from across the healthcare industry, enabling highly efficient and personalized healthcare support for each individual. Simpler is better for everyone – for employees, their families, and their employers.

A Seamless Health and Benefits Experience

One place to go, one password to remember, and one completely integrated, personalized health and benefits experience. The Accolade cloud-based platform creates meaningful, personal connections between consumers and their Accolade Health Assistants and Clinicians, while also connecting the fragmented world of employer health and benefits. The platform powers an unmatched suite of connected Accolade solutions, including our mobile application, online member portal, personalized member dashboard, customer analytics portal, and member communications engine. Interaction anywhere is visible everywhere for the member and their dedicated team – from mobile to online to phone.

THE ACCOLADE PLATFORM

Accolade Online Member Portal

Single personalized health and benefits hub for members. Secure messaging with their dedicated Accolade team is automatically synched with the mobile app.

Accolade Mobile

Live, secure messaging with a dedicated Health Assistant and Nurse, and integrated apps such as claims, telemedicine and provider search.

Accolade InView

A comprehensive and personalized dashboard for the Accolade team into the health, life and benefits of each individual and family member.

Accolade Ecosystem

Integrated digital health solutions from an employer's full suite of benefits, combined and simplified for both members and employers.

Clinical Expertise

Data and intelligence blend with clinical expertise to enable precise health interventions and support at precisely the right time.

Maya Intelligence Engine

Millions of data points churn within our intelligence engine to present powerful insight and highly personalized recommendations for each member, helping influence behavior and healthcare decision making.

Accolade IQ

A rich dashboard for employers to access real-time reports on member engagement, utilization of benefits, and insights that support benefits teams and program design.

Accolade Activate

We connect each member to the most valuable health and benefits information where most convenient for them - mobile, email, online, or in the office.

Flexibility + Scalability

The Accolade platform is built to scale, to ensure a consistent and exceptional experience for members, employers, health systems, carriers, and partners. Employers can dial up or dial down services and capabilities to best map to their organization's health and benefit goals. Accolade generates intelligent insights about employee engagement and satisfaction that can help shape and inform every employer's plan design.
